New City Hall .- Our new City Hall is gradually approximating its completion. It is a work of fine architectural taste; and reflects credit upon its projectors, as well as its builders. Much credit is al so due our City Council, for the care and attention they have given, during its progress. We learn that it will be completed early this season; and when so completed, will be one of the finest and best arranged halls in the State, outside of Cincinnati, for exhibitions, fairs, concerts, the. Lancaster has long felt the want of its interior, in a superior style.

of the building. The erection of such a building, under

the pressure of the times and failing our city.

OUR STREET CROSSINGS-The crossings of Main, Wheeling and Mulberry streets. with Columbus street, have been greatly improved by constructing culverts over on Broadway?

First - About 1 o'clock P. M., on Sunday last, fire was discovered in the cellar under the Drug store of the Messrs. Hux-TER, in the Shæffer corner. The fire companies were promptly on the spot, and other articles usually kept in jew-after a severe struggle brought it under. The cellar, we learn, contained large quantum of the cellar, we learn, contained large quantum of the present Common School. Lattest Seyson to the present Common School Lattest Seyson to th tities of turpentine, and other inflamable vils and chemicals, which, if they had of the fire cannot be ascertained.

certions, which were rendered bazard ous by the density of the smoke in the cellar and the rooms above. The large eistern at the corner of the City Hall across the street, supplied an abundance of water. There should be many such in the city. The occurrence is suggest ive of increased caution, and attention to insurabes.

Fire!-About 10 o'clock on Saturday morning of last week; the fire companies were called out by the alarm bell. The fire occurred in the roof of the dwelling of Mr. FAHRER on Columbus street. It was however, soon subdued, and but lit quently.

THE WHEAT CROP.-From all that we can learn through our exchanges and other means of information, we are able to say, that the prospects for a fair crop of Wheat the coming harvest, are as good as the hverage, atthis season. The peruling character of the winter, with the drought of March, has certainly injured the roots very much, but with a favorable season we have nothing to fear.

Ecuraes in 1860 .- There will have been five eclipses in all in the year 1860. Viz: The sun was eclipsed on the 22nd day of January; the moon on the 6th day monthlies. of February; the sun will be eclipsed a gain on the 18th of July; the moon on the 1st of August, and the Democantic party on the 2nd day of November.

The Broadway Hotel has been repainted, and greatly improved. Mr. SCHULTICE, in the same row, has contributed very much to the beauty of that locality, by the creation of a fine row of frame buildings. We hope his example will prompt others to similar enterprises.

COMMISSIONER .- JONAS H. BAKER, of Richland Township, has been appointed to fill the vacancy in the Board of Commissioners for Fairfield county, occasioned by the death of HENRY BLAIRE. We regard the appointment as a very good one.

BARBER SHOP .- EGDERT SMITH, has rethoved to the room recently occupied by Mr. GATES, in the Tallmadge Block .-EGRERT's customers appreciate his servibes, and will stay by him.

Another ten years like the last ten and our Courts will have allently revolutionized our Constitution. Judicial Const tation is purging our law of liberty, and putting an iron rod into the hands of our Constitution, with which to crush that very sanctify of human right for whose protection it was ordained. The Supre-e Court of the United States is an enemy of liberty, and the friend of bondage.

And like a great heart, it is sending out despote thought the great is sending out despote thought every artery of the Court of William Piedler, decorated.

March 22, 1860—4447 pts 3.75 despotic blood through every artery of the Government. Our avil is desperate; our danger, critical. If taken now, it may be overcome. If deferred, it will, by and by, demand a hundred fold exertion, or else defy all effort. The slave-trade is opened, and volcanic Africa again streams lava upon our shores. The Court is preparing the way, step by step, for the supremacy of slavery in every part of this continent.

IT PERMINATION, consultation, and advice, free of charge.

Those wishing treatment will be prescribed for on the most rassonable terms.

Dr. Wallace's object in coming before the public in his present capacity, is the suppression of imposition, both in and out of the undical professions. He has long been an industrious sudest of Naiere--a close observer of facts, and from his knowledge of the subject, he is obsolutely certain of and prepared to demonstrate the fact, that the theory upon which all the present medicine giving systems are based is all wrong—the drug medicance only change the samptonus of, and never perminently cure diseases; but on the contary, the constitution of the palient is always more or less irreparably induced by the treatment of the well meaning, but misoducated doctors, imprincipled and Tresponsible quacks, and patent medicine who make use of drug stuffs.

Dr. Wallace is now revolutionizing the minds of the pedple on the subject the is introducing an entirely new and rational system for curing diseases. Loralids will easy need to give his system a trial to be convinciently and the decided apperiority over all others now practiced.
